

Smarter customer service starts with real-time data

Powered by Salesforce Data Cloud & Agentforce

Launch proactive, personalized support powered by Salesforce Data Cloud and Agentforce live in just 6–8 weeks.

QUICK-START PACKAGE

We help service teams shift from reactive support to intelligent, real-time engagement.

With Salesforce Data Cloud and Agentforce, we unify customer data, enrich profiles, and trigger AI-powered actions that accelerate resolution, personalize support, and increase satisfaction all within Service Cloud.

WORKS WITH
Service Cloud

FEATURES
Data Cloud + Agentforce

- USE CASE**
- Detect and open** support cases based on live customer behavior.
 - Personalize** AI-agent replies with real-time customer data.
 - Prioritize** service by customer value or urgency.

WHAT'S INCLUDED?

Your quick path from Data to Action.

6–8 weeks | From €17,500*

*Includes setup of Data Cloud and Agentforce, connection of 2–3 data sources, and activation of up to 2 use cases on one digital channel.
*Final pricing will be confirmed during the kickoff phase based on scope and system complexity.
*This offering is time-limited and may be modified or discontinued at any time.

Real-world service use cases & tangible results

Powered by Salesforce Data Cloud & Agentforce

Proactively open support cases

Use Data Cloud to detect help page loops, failed logins or app crashes.

GAIN

- Up to **30% faster** case creation
- Improve CSAT with faster first response

Personalize Agentforce replies with real-time data

Adapt answers based on product, status, location, or customer tier.

GAIN

- Increase automated resolution rate by **25-40%**
- Reduce average handle time (AHT)

Segment and prioritize high-value customers

Use Data Cloud segments like VIPs, new users, or at-risk clients.

GAIN

- Route cases **20-50% faster**
- Reduce churn risk in key accounts

Trigger help content based on customer behavior

Proactively offer guidance before a ticket is created.

GAIN

- **Deflect up to 20%** of incoming tickets
- Lower support volume without sacrificing quality

Just a few ways Data Cloud and Agentforce make Service Cloud smarter for both customers and agents.

WHAT'S INCLUDED?

Your quick path from Data to Action.

6-8 weeks | From €17,500*

*Includes setup of Data Cloud and Agentforce, connection of 2-3 data sources, and activation of up to 2 use cases on one digital channel.

*Final pricing will be confirmed during the kickoff phase based on scope and system complexity.

*This offering is time-limited and may be modified or discontinued at any time.

From setup to go-live in just weeks

- Connect 2–3 data sources (CRM, web, service logs)
- Set up identity resolution & unified profiles
- Create real-time segments (e.g. churn risk, VIPs)
- Activate use case (e.g. case creation or routing)

- Configure AI Agent with defined topic
- Connect it to Data Cloud segments
- Trigger actions (e.g. auto-reply, case creation)
- Deploy under digital channel (e.g. chat, WhatsApp, etc.)

Start with what creates impact. **We will be by your side from day one.**
